WHEELER ON WIKOFF

The Cavalry Leader Continues His Testimony.

DEFENDS ARMY ADMINISTRATION

Could Rave Been Expected-Situation of the Comp Admirable. Reply to Newspaper Charges.

WASHINGTON, Oct. 5.-The war investigating commission began taking testimony yesterday, and Major General Joseph Wheeler was on the stand the greater part of the day. There was a full attendance of the commission, and the doors of the room in which the inquiry is conducted was for the first time spened to representatives of the press.

General Wheeler's testimony covered the case of the soldiers at the two important points of Santiago and Wikeff. He said with reference to the conduct of affairs at Santiago that there had necessarily been some suffering in the trenches, but that General Shafter had exercised the utmost effort to protect his men. There had been, he said, a shortage of land transportation facilities for a time, and there had been no tents for a week. The roads were very fair. He revealed for the first time that he had some feeling over the fact that his command had been given the fourth place in General Shafter's order for the landing at Santlago when he had thought he was entitled to be allowed to land first on account of his

The entire afternoon session was devoted to the examination of conditions at Camp Wikeff, on Long Island. The general contended that Wikoff was a model camp, the climate a salubrious one and the accommodations quite exceptional in character. He considered the hospital capacity equal to the demands upon it and that no military camp in history was ever so well supplied in all respects as was this. Red tape methods were entirely abolished, and the demands of the men were met as soon as they were properly voiced.

Describing the general location of the camp, General Wheeler said it was charming. The sea almost surrounded it, the ground was rolling, and the tents were all ditched. As a rule, when the parents or other relatives came to visit the soldiers they expressed satisfaction at the care the men were given. He knew of no complaints from relatives. General Wheeler explained that the reason there was so much complaint about the burials was that the burial ground was so near and so plainly in view. Only 260 of the men had died in the existence of the camp. He knew nothing of the details of interments and could not say whether any bodies had been buried without clothing. Upon the whole, he thought the fact that there had been no spread of yellow fever from the camp was quite marvelous. One of the greatest difficulties he had encountered was to properly control the removal of sick soldiers by their relatives in cases where sympathy and affection often acted instead of discretion. He had, he said, no medical director, but gave his orders to various physicians who seemed to be equally in charge.

General Wheeler considered the hospital facilities ample after the erection of the division hospitals. There were times when they were crowded for a day or two; but, on the other hand, there were many times when the buildings were not filled.

Replying to General Dodge, General Wheeler said that the want of railroad facilities had been felt most, especially in transporting troops and in securing supplies, but on this latter point there was no very serious trouble. The railroad officials had used every effort to meet the demands upon it when complaint was made to the manage-

Replying to Dr. Jenkins as quoted in the New York World's specifications, General Wheeler said that if the soldiers had not been landed at some isolated place such as Montauk Point the fear of yellow fever would have caused a general outcry. The experts had differed in opinion as to whether there had been any yellow fever at Wikoff. Even at Santiago he had found that the experts were unable to determine whether a patient had yellow fever. He thought it would have been cruel to send the men home within five days after their landing, as Dr. Jenkins had suggested. As a matter of fact, many of them were sick men and needed attention in the hospitals. They would have failen sick on the trains and attracted general attention to the situation. The distress was due to the condition of the men and not to the topographical or climatic conditions. Ninety per cent had the fever in them, and the officers suffered as much as the men. Montauk Point, he thought in brief, was necessary for quarantine purposes to prevent the spread of fear, if for no other purpose.

Replying to other allegations made by The World, General Wheeler gave details of the arrival of troops from Cuba. He did not think the hospitals were crowded; that if the sick men were without blankets or adequate shelter he had not known the fact, and if he had known such a want he would have supplied it; that no effort was made to furnish cots to the soldiers, but that as soon as possible floors were put in the tents, and they were all given straw beds, but that in the beginning there were many tents without floors; that if the men had no blankets the fault must have been either that of the men or their comman ling officers. In such cases as this last named there was no red tame; the men were supplied imme- lof New York sity, shi dongineer. diately. He mentioned one case in which he had telegraphed to New York for four carb ads of medicine, and it ar-rived on the evening of the next day. If there had been any complaints about blankets, the wants rould have been al-

at inin eductify supplied.

almost starving condition, and they laughed at the report. The men asserted that the only trouble was that they had too much, and as a matter of fact no soldiers had ever been so well sup-

General Wheeler asserted that it was true some of the employees had used articles intended for the sick, and he had been told by some ladies that physicians had appropriated some of the articles, including apollinaris water, provided for the hospital. He had issued an order for the arrest of those engaged ja such a practice. He had himself seen a boy distributing oranges among his fellows. "There were," he said, "undoubtedly individual cases of suffering and of neglect, but they were the exception." He had investigated the charge that the hospitals were overcrowded, and he was satisfied that such was not the case. He made almost daily visits to the hospitals, and if he had found them overcrowded the deficiency would have been made good and immediately.

"We had no red tape about this or any other matter," said the general, "but we ordered a thing done, and it was done. Our aim at Wikoff was to supply the necessities of the men, and we attempted to do so without resorting to the formalities necessary in times

At 4 o'clock the commission adjourned until today. General Wheeler will resume his testimony at 10:30 today and will probably be followed by General H. V. Boynton. General Fitz-Hugh Lee has notified the commission that he will not be able to appear before Thursday.

THE M'INTYRE COURT MARTIAL.

Chaplain Takes the Stand Again In His Own Defense.

DENVER. Oct. 5 .- When the court martial trial of Rev. Joseph P. McIntyre, chaplain of the battleship Oregon, was resumed vesterday, the defendant, who had testified on Monday in his own behalf, was recalled to the stand. He told of the constant watch kept for Spanish torpedo boats and for Cervera's fleet from the time the Oregon left Callao till it reached the end of its journey.

On cross examination the chaplain stated that while in Chicago he was a very sick man, but during his stay there he submitted to newspaper interviews on the trip of the Oregon and the tattle of July 3. The reports of those interviews, the chaplain said, horrified him and made him determined to have nothing more to do with reporters. Witness explained that his horror was due to the fact that the reports "published Were" very different from what he intended to say to the eporters. He could not remember what the reports were.

The chaplain said he had no intention to sneer at the name of Captain Roblew D. Evans. He had never heard any reference to Captain Evans except in the highest terms.

The latter was absent at the time, so the Filipinos paid their respects to Assistant Secretary Adee. The visit was entirely informal, and it was stated authoritatively afterward that it was lacking in official significance. Later in the day Mr. Adee had occasion to see the president, and this gave color to the report that the Filipinos had let their wishes and purposes be known in a more or less official manner. Mr. Adee's visit to the White House was on another matter, however, and there is said to be no change in the status of the Philippine delegates. The officials here desire to show them every courtesy suitable to the occasion without creating complications by an official recognition.

Transport Returns From Manila. SAN FRANCISCO, Oct. 5.- The Unitd States transport Senator has arrived from Manila via Honolulu. She left Manila 39 days ago for San Francisco, but was compelled to stop at Honolulu for repairs. The Senator had about 30 soldiers on board, six of whom are very sick. She was sent to the government quarantine station at Angel island and will probably remain there all day.

General Merritt Before American Commissioners.

SPANISH MEMBER'S OPINION.

World Politics-Growing Importance Will Make Impression on European Diplomacy.

PARIS. Oct. 5.-The session of the American peace commission lasted some hours. General Merritt detailed to the commissioners his personal views and those of Rear Admiral Dewey regarding the physical, geographical, moral and political conditions prevailing in the Philippine islands. General Merritt's exposition and his personal views and judgment about the Philippine islands was not finished. He will meet the commission again, when he will continue to discharge his errand here.

La Patrie prints an interview said to have been had with General Rafael Cerero y Saenz of the Spanish peace commission, in which he is represented as saying:

"Peace between Spain and the United States will complicate all the eastern questions. The day upon which the preliminaries are signed the first chapter in the new history of Europe will be commenced, as the United States henceforth will play a preponderant role in events of which different parts of the world will be the theater.

"It has been pretended that Spain wanted war, or at least allowed herself to be dragged into it. This is a mistake, since the United States have long coveted our colonies. They introduced separatist and autonomic ideas into Cuba, ideas which were not shared by a majority of the inhabitants of the island. Influences of all kinds have been brought into play to excite risings, and hence ensued a war the consequences of which may be so prejudictal to ourselves and may affect all European interests.

"The North Americans on their side will be compelled to create at once the naval forces demanded by the situation brought about by events. The stronger the United States are the more their friendship will be sought after and the more also their rivalry will be feared by all European nations.

"Look at the extreme orient, where France, Russia, Germany and England are powerful rivals. If the Americans install themselves in the Philippines, the situation will be greatly modified. and they will not hesitate to seek the friendship of Japan and England to the detriment of all other nations. This will be for America a truly privileged situation, but the diplomatic role will be rendered proportionately more diffi-

Judge Van Wyck Notified.

NEW YORK, Oct. 5 .- Judge Augustus Van Wyck last night received the official notification of his nomination for governor by the recent Democratic state convention. He made a brief address to the committee that waited upon him at his home in Brooklyn and accepted the nomination. The ceremony was very formal and did not consume more than half an hour. The committee that made the notification consisted. of 15 members, headed by Frederick C. Schraub, chairman of the Syracuse convention, the other members being Senator P. H. McCarren, Perry Belmont, John W. Webber, John F. Carroli, John Whalen, John J. Kennedy. Andrew G. Field, Francis J. Molloy, C. N. Bulger, Arthur A. McLean, S. S. Taylor, Frank Campbell, John N. Carlisle and John F. Gaynor.

A Chinese Story.

LONDON, Oct. 5.-According to a dispatch from Shanghai, the Peking correspondent of The Mercury of that city asserts that the emperor of China intended to remove the empress dowager from his path and intrusted his plans to an adherent. The latter proved a traitor. The empress dowager, on learning of the plot, sternly upbraided the emperor and invited him to drink the contents of a cup to which she pointed. He swallowed the fluid at a gulp. It is impossible, however, according to this correspondent, to ascertain whether the emperor is actually alive or dead.

Postal Receipts In Porto Rico. WASHINGTON, Oct. 5 .- Acting Postmaster General Heath has received a report from Postal Agent Whitney at Mayaguez, Porto Rico, announcing that during four consecutive days the postal receipts amounted to \$2,600, and on Sept. 23 they reached over \$4,000. The department has taken steps to supply further clerical assistance there. The letter says few Americans as yet are in Mayaguez. To show how eagerly Americans are welcomed, Mr. Whitney says on his arrival he was greeted with addresses of welcome from the alcalde, the municipal fundam and other local officers

Trouble With Indians in Minnesota. ST. PAUL. Oct. 5 .- General Bacon, commander of the department of Dakota, with Captain Wilkinson and 80 soldiers, left yesterday for Walker. Minn, to look after the Leech Lake Indian troubles. General Bacon hopes to be able to secure a peaceable solution of the trouble. A felegram has just been received saying there is no truth in the report that Marshal O'Connor is being ! forcibly detained. He is said to be holding a conference with the piliagers.

VICE ADMIRAL DEWEY.

President Will Advise Revival of the Rank For Manila Here.

WASHINGTON, Oct. 5. — President McKinley and Secretary of the Navy Long have determined to recommend to congress the revival of the grade of vice admiral, to be filled by the promotion of Rear Admiral Dewey.

President McKinley in his annual

message and Secretary Long in his an-

nual report intend to devote considerable space to the achievements of the Asiatic squadron under the command of Rear Admiral Dewey and the splendid judgment and diplomatic tact that officer has displayed in handling the many difficult questions which arose before the arrival of the American troops and the capture of Manila. Authorities say that in advancing Rear Admiral Dewey to his present

grade for services performed in the battle of Manila bay he was not rewarded to the extent that Rear Admirals Sampson and Schley were for gallant conduct in the battle of July 3, and that the commanding officer of the Asiatic squadron has received no tangible recognition for his work since May 1, which involved the disposition of questions which arose with the insurgents and with the German admiral.

As under existing law Rear Admiral Dewey will reach the retiring age in December, 1899, there is a strong probability that Secretary Long will also urge that congress pass a law permitting the retention of that officer upon the active list for an additional ten years. A law permitting such action in the case of officers receiving the thanks of congress for gallant conduct in the civil war is now on the statute books, but the authorities would be glad to see the law changed so that officers of the recent and future wars be similarly rewarded.

There is little doubt that congress will willingly adopt the recommendation regarding Rear Admiral Dewey's advancement.

THE PANA STRIKE.

Troops Still at the Mines-Several Skirmishes.

PANA, Ills., Oct. 5.-The Baltimore and Ohio Southwestern carried from this city yesterday two coaches and a caboose which the trainmen were ordered to leave at Gowden, where the Clover Leaf road crosses the Baltimore and Ohio. The miners concluding that the cars were to convey more southern negroes to Pana to take the place of the strikers in the coal mines here, a movement was inaugurated to intercept the train. Later it was found that sending the coaches was a ruse of detectives to induce the miners to at tempt another hold up and to effect a capture of the entire crowd of unionists. The miners who were preparing to leave town were ordered not to do so by the union officials working on the hold up of last Friday. It is probable arrests will follow.

A number of shots were fired by deputies at the Pana Coal company's mine Monday night. The militia commander, Captain Craig, immediately dispatched 50 men to the mines. The soldiers went on a run. On arriving the deputies said ers with stones. The militia divided in squads and searched the neighbor hood, but no strikers were apprehended and no arms found. Two labor agents left the city yesterday for Alabama, being escorted to the train by an armed deputy sheriff. It is expected that 500 negroes will arrive from Birmingham before the close of the week.

HAWAH'S FUTURE. How the New Territory Will Be

Governed. HONOLULU, Sept. 24, via San Francisco, Oct. 5 .- The Hawanan Star has published an outline of the form of government decided upon for Hawaii by the congressional committee. The Star says it is to be called the territory of Hawaii and will be allowed one representative in congress. The governor, to be appointed by the president, will be paid a salary of \$5,000 or \$6,000 a

The committee will make no recommendation as to the appointment of the governor. Hawaii will have a legislature and will make its own laws, subject to the approval of congress.

There will be no change in the present form of the legislature. The property qualification of \$1,500 in real or \$3,-000 in personal effects to make an elector eligible to vote for the senate is done away with. To vote for a senator in the territory of Hawaii an elector must possess an annual income of \$600. In everything else his franchise is free and unrestricted by any qualification, educational or otherwise. The judiciary system will remain undisturbed. The Supreme court will probably be given jurisdiction in United States cases, and judges will be appointed for four years instead of for life. It is understood that the question of citizenship will be referred to the state department at Washington for final decision.

AN ISLAND SWEPT AWAY.

Twenty to Fifty People Said to Have

SAVANNAH, Oct. 5.-Complete details from Brunswick and surrounding country are impossible because of the prostration of the telegraph and telephone systems.

Campbell island, 12 miles from Darien, on the Altamaha river, is said to be completely swept away, and only three persons succeeded in getting off. There is no definite information as to the population of the island, and estimates of the number supposed to have perished there range from 20 to 50. The population was made up wholly of colored truck growers.

Four deaths are now reported from Brunswick. The damage to property

News from the outlying islands is not obtainable. The Norwegian bark Louise, the schooner Blanch Hopkins, the schooner Aaron Shepard, the schooner Henry L. Martin and the pilotboats E. B. Jordan and Gracie are ashore.

The pilotboat Pride sank at her dock. The steamer Egmont went across the marsh to Crispen island, and her bow is sticking up in a tree. There are no docks left at Darien.

HAVANA COMMISSION

A Two Hour Meeting Held Yesterday.

PROPOSED TARIFF AROUSES ALARM.

tion of Sumatra Wrappers Would Ruin Havana Cigar Business. Will Protest at Washington.

HAVANA, Oct. 5 .-- The United States and the Spanish evacuation commissioners held a joint session yesterday. The Spanish commissioners, Admiral Manterola, General Gonzalez Parrado and Marquis de Montoro, with Senor Girauta and their respective staffs, arrived at the palace of the colonial government at 8 o'clock, where they awaited the arrival of the American commissioners, who put in an appearance shortly before 9, coming in two well appointed carriages.

The conference lasted two hours, no one being allowed to approach within a block's distance. The meeting was over at 11 o'clock, when a photographer took pictures of the joint commission in several positions. Lunch was then served in the palace, after which the commissioners separated.

General Blanco's decree directing that the confiscation of cattle in the island be stopped has been warmly commended on all sides, especially by tobacco planters, who at present are the chief sufferers, and all the more so because the Spanish troops in the interior, despite the cessation of hostilities, are not enjoying the full blessings of peace, at least so far as food and nourishment

tobacco merchants, planters, manufacturers and exporters are greatly excited and apprehensive over the new tariff which Washington proposes to apply. Committees representing the manufacturers and exporters have placed the matter fully before Mr. Robert P. Porter, the United States special commissioner, explaining wherein the proposed tariff would be a death blow to the tobacco industry of the island and urging him to bring the question before President McKinley with a recommendation that the tariff be mod-

Gustav Bock, representative of one of the largest tobacco syndicates in the island, has forwarded to President McKinley through Mr. Porter a long and careful study of the problem. Mr. Luis Marx, one of the foremost American tobacco merchants here, has been chosen by the various tobacco interests as a special delegate to proceed to Washington to urge a revision of the proposed tariff. He will leave today for Washington, going by way of

Tampa, Fla. Heretofore importation of any kind of tobacco has been prohibited, but the proposed tariff would admit importation. The duty on leaf tobacco is fixed at \$1.50 per pound for stripped and \$1 for unstripped. This, while virtually prohibitive for fillers, would easily allow the importation of Sumatra wrappers, which would work ruin by adulteration to the world renowned

Havana cigars. In the same way the duty imposed on manufactured tobacco of \$3.60 per thousand would allow cheap and inferior grades of foreign tobacco to be imported here, to get naturalization and then to be re-exported as Havana tobacco, a process which could have but one result-that of discrediting and ruining the status of the Havana article in every market in the world, Mr. Marx will fully explain the situation to President McKinley, urging that the matter deserves the closest attention and a prompt revision of the tariff.

General Solano, General Blanco's chief of staff, left Havana last night for Cienfuegos, intrusted, it is understood, with a special commission relating to the evacuation. It is expected that all the Spanish troops at Manzanillo will have evacuated that city by Friday, going by the transports Porto Rico and Antinogenes-Menendez to Cienfuegos, from which port they will be shipped to

Republican Conventions.

PLATTSBURG, N. Y., Oct. 5.-Two Republican conventions were held here yesterday, both being harmonious and enthusiastic. At the congressional convention for the Twenty-third district former State Senator Louis W. Emerson of Warrensburg was unanimously nominated to succeed Congressman Wallace T. At the senatorial convention for the Thirty-first district George Chahoon of Clinton county was nominated for a third term in the state senate. There was no opposition.

Fenrs For Mail Steamer's Safety. ST. JOHN'S, N F. Oct. 5.-It is feared that the Labrador mail steamer Leopard, with a crew of 18 and 12 passengers, was lost during a severe storm off the northeast coast of the island last week. The storm was the sevenest that had raged there in many years, and it is believed that the Leopard foundered.

An enthusiastic admirer of Colonel Roosevelt's versatility has written an article for Current Literature comparing him with the Admirable Crichton, the Scottish prodigy of the sixteenth century, who was handsome in form and feature, and excelled in drawing, fencing, dancing, music, philosophy, mathematics and other accomplishments. But the Admirable Crichton was not so admirable after all, for Scaliger says that, though he was a man of very wonderful genius, he was more worthy of admiration than esteem. He had something of the coxcomb about him, and only wanted a lit tle common sense."

Honest Republicans must feel that it is hard to idealize and hurrah for a man who, after setting himself up as a 'squarer" and better man in politics than the average politician and thereby courting the support of "the better element," is proved to have been making affidavits and taking a good deal of trouble in order to escape the payment of taxes in the State where he really belonged.

The question of Colonel Roosevelt's eligibility turns on the question of his residence. The question of his residence was raised by himself. The impression that it was raised by Governor Black's friends or by the wicked. in other words, the Democrats, is a mistake.

If a citizen be not a resident of a State for the purpose of personal taxattion, he rertainly cannot be for the purpose of holding political office. For a man of party to take a contrary position, is, it seems to us, to commit

" O carsed spite That ever we were born to set it right." -The department stores in New York now do a great deal of the business up this way that fifteen years ago used to go to Middletown. As these New York stores hunt up the trade, and deliver the goods freight paid, their business is on

the increase in those localities where the

summer boarder congregates. -The Delaware County Patrons and Farmers' Insurance Company has been J. W. Seymour, of Rock Rift, Delaware badly bit by lightning the past summer, having had no less than eighteen losses from this cause alone, averaging from \$4 as the lowest to \$1,750 for the highest. An assessment has been made at the rate of five and three-tenths mills on cases were not presented to the Grand the dollar.

-The towns of Rockland and Colchester were struck hard by the August high water. No other towns on the line of the O. and W. were so badly torn up. Aside from the damage done to the roads and bridges, nearly everybody who owned property within two hundred feet of the streams suffered more or less. The highways in both these towns had just been put in good condition for travel, after the effects of the spring flood of four years ago, and those who have not seen them cannot imagine the tearing up the flood gave them.

-One Delaware county farmer, who sowed six bushels of buckwheat has just finished harvesting seven. The crop is not generally as bad as the above would indicate, yet it is very short at the best. Those who like pancakes need not worry as timber from which to make them will be plentiful, although it may not be all buckwheat.

-Eighty cents a cord is the price now being paid for cutting acid wood. These choppers were promised more than this during McKinley prosperity, and in fact were made to believe that if Bryan was elected there would be no demand for wood at any price, as the acid works would be compelled to draw their fires and close their doors. The State Democratic ticket will get a good vote up this way in the acid producing region from the fact that McKinley prosperity has been proven a delusion.

If many of the Delaware county fairs could be consolidated, it would be better for all of them.

-I question if there is as much Up Midland butter used in Middletown as there was ten years ago. Chenango county had an outlet for its butter into the Pennsylvania coal region, and when the Scranton branch of the O. and W. was built it let Delaware county in and the consequence is that a great deal of the butter that found a market in Middletown, now graces the tables of the residents of the Lackawanna valley. AMUSING EXPERIMENT.

How Boys and Girls Can Have Lots of Fun with Four Xecdles and " Cork.

Here is a very interesting and amusing experiment. Procure a large cork and cut off from the top a circular piece about a quarter of an inch in hickness. Now cut the remaining tree of cork up into four squares or oblongs of the same thickness and size. Next obtain four large needles and stick these four pieces of cork on to them, and in their turn stick them all to the circular piece of cork, as shown in the illustration.

Now give or gum to one side of each of the four pieces of cork a small

If small figures—a lady and gentlean dancing, for instance—be cut out of stiff, but light weight paper, and tixed on to the center piece of cork, some very lifelike movements can be roduced, which will last sometimes for a day or more continuously.-Colden Days.

BITES OF ANIMALS.

-From the report of a majority of our farmers corn is an excellent crop and potatoes are not as bad as predicted. We have every reason to believe that pancake timber will be very reasonable in price this fall as the crop was first class in this section. H. We bave not heard how many bushels the Caskeys have, but we know they must have a large quantity as they had a fine lot of it sown and it looked very promising. TO CURE NERVOUS DYSPEPSIA.

To Cain Flesh, to Sleep Well, to To Know What Appetite and Good Digest ion Mean, Make a Test of Stuart's Dispepsia Tablets.

Interesting Experience of an Indianapolis Cemtleman.

No trouble is more common or more misunderstood than nervous dyspepsia. People having it think that their nerves are to blame, are surprised that they are not cured by nerve medicines and spring remedies; the real seat of mischief is lost sight of: the stomach is the origin to be looked after.

Nervous dyspepties often do not have any pain whatever in the stomach, nor perhaps any of the usual symptons of stomach weakness. Nervous dyspepsia shows itself not in the stomach so much as in marly every other organ; in some cases the heart palpitaces and is irregular; in others the bowels are constipated. with headaches; still other rectroubled with loss of ilesh and appetite, with the accumulation of gas, sour rising, and heartburn.

Mr. A. W. Sharper of No 61 Prospect St., Indianapolis, Ind., writes as follows: "A motive of pure gratitude prompts me to write these few lines regarding the new and valuable medicine, Stuart's Dyspepsia Tablets. I have been a sufferer from nervous dyspepsia for the last four or five years; have used various patent medicines and other remedies without any favorable results. They sometimes gave temporary relief until the effects of the medicine wore off. attributed this to my sedentary habits. being a bookkeeper with little physical exercise, but I am glad to state that the tablets have overcome all these obstacles, for I have gained in flesh, sleep better, and am better in every way. The above is written not for notority, but is based on netual facts." Respectfully yours.

A. W. Sharper. 61 Prospect St., Indianopils, Ind.

kinds of gigantic yet futile efforts to get local proof, but the attempt ends in producing a statement or two from places that as far as Middletown citizens are concerned might as well be in the moon. Here is Middletown proof which backs up the merits of Doan's Kidney Pills. Mr. Cyrus Coddington, of No. 150 Vickham Ave., says: "Some seven Wickham Ave., says: years ago I had an attack of kidney

complaint, a very severe attack. It left me and I was not again bothered until a short time ago. The last time it did not take so long to straighten me out and I gave Doan's Kidney Pills the credit for it. I got a box at J. E. Mills, drug store. I had to get something for may back ached acutely. I couldn't stoop to lift and the kidney secretions went wrong. After using Doan's Kidney Pills the pain left me and that could be expected of them." Doan's Kidneys Pills are for sale by all

dealers, price 50 cents per box. Sent by mail on receipt of price. Foster-Milburn Company, Buffalo, N. Y., sole agents for the United States Remember the name Doan's, and take no substitute.

SENATORIAL.

For State Senator, WILLIAM QUAID, of Newburgh. ASSEMBLY.

For Member of Assembly (First District),
JAMES E. WARD, of Crawford.
For Member of Assembly (Second District),
DANIEL P. SCHULTZ, of Port Jervis.

Nominations made in advance by party bosses and merely ratified in conventions are handy from a newspaper office point of view. Proof slips of Judge Tompkins speech accepting the Republican Congressional nomination were distributed to the newspapers of this city at 11 o'clock, this morning, several hours before the nomination was made. No wonder a disgusted delegate of very old fashioned ideas growled, this afternoon, that there was "no longer any use in holding Republican conventions.

The talk about Roosevelt's eligibility and his tax dodging ought not to divert public attention from the fact that he ought not to be elected Governor because he is the caudidate of Platt and because his election will mean the perpetuation of all the evils, abuses and corruptions State affairs under Republican rule. In order to secure honesty, economy and strict accountability to the people the control of the State government must be placed in Democratic hands.

The nomination of Will Quaid, of Newburgh, for State Senator, gives the Democrats more than a fighting chance in this Senatorial district which our friends, the enemy, had counted on as reliably Republican. Mr. Quaid was a rough rider and was in the fight at Santiage, and his nomination has aroused much enthusiasm among all who know him and appreciate his reat courage, his modest worth and his other manly qualities. He proposes to make an active canvass and will certainly poll a very large vote.

Roosevelt in his speech of acceptance effusively endorsed Gov. Black's admin-

istration by saying ... The record made by the Republican administration in the State of New York is a guarantee that upon all questions affecting the property rights and interests and liberty of all citizens, the

Republican party can be safely trusted." That sentence either showed that the candidate's whole speech was hollow and insincere or it showed that if elected Governor he will be content to follow in the footsteps of Black and put men like Payn and Allridge in high office to goard "the property rights and interests of citizens," and thus perpetuate all the iniquities that have made Black's admustration odious.

THE INTENT OF THE PEOPLE.

From the New York Times. Undoubtedly it has been the intention of the people of the State to inflict upon the Republican party a crushing defeat as the penalty of its vulgar corruptions and defiant abuse of power. That stern stent, we are confident, has been changed neither by the nomination of Roosevelt nor by the proceedings and atterances of the Saratoga convention.

REPUBLICAN CONGRESSIONAL CON-VENTION.

Meld in This City, To-day-Many Promiment Républicans en Mand-Sullivan's Divided Delegation-The Convention's Cut and Bried Proceedings.

The Republican Congressional convention was held at the Assembly Rooms. this afternoon. The delegates from Sullivan and Rockland and the distant part of Orange arrived on the morning trains, i and they made the Russell House headquarters. That part of the Sullivan delegation

which favors ex-Sheriff Harrison Beecher for postmaster at Monticello was for Judge Tompkins, of Rockland, for Congress, for the "machine" is for Beecher, and he and his friends are therefore for the machine and its candidate. The Sullivan delegates who thought Major Royce about the size for the Monticello post office rent the air with futile clamor for a Sullivan county candidate. They might as well have asked for one from the other side of the moon. "Ben" arrived on the 11:25 with

Billy" Taggart, and they sauntered off down James street to discuss something or other while the lesser lights on the porch of the hotel gaped and envied.

Little Lexow, who can be knocked out by the machine any time Lexow cares to come up as a target, but who gives the machine a good many anxious minutes. came in with the Rockland county delegation. Nobody paid any particular attention to him.

"Lou" Goodsell was on handearly and shook hands all around.

Edward Tompkins called the meeting to order amid applause, and said the Congressional committee had selected George McLaughlin, of Monticello, as chairman. He appointed Supervisor Lawson, of Orange, and Mr. Lawrence, of Reckland, to escort him to the chair.

Chairman McLaughlin threw bouquets at "Ben" Odell, and nearly let the cat out of the bag in his knocking about the name of the man who would be named later by another man to be "Ben's" worthy successor.

Senator Lexow named Bayard Fonda as Rockland's secretary and C. A. Sprague, of Sullivan, and Geo. W. Hastings, of Orange, were also made secretaries.

Senator Lexow wanted the officers sworn but "Ben" said, "I beg to differ. They didn't do it at the State convention." Then Lexow said, "Iwithdraw," meekly, and the incident closed. The delegates handed in their cre-

dentials, and on motion of Mr. Brazee the calling of the roll of delegates was dispensed with and the convention was asked to proceed to nominations.

Mr. Lexow was not to be turned down even if the secretaries did fail to call for Rockland's credentials. He begged to be allowed to present them and did so.

Then H. B. Fullerton got up apparently to nominate the man, but little Lexow beat him out in getting the chairman's eye. He began to make a speech and some one from Rockland called out, "platform." He needed no second hint and soon stood before the convention making a speech which certainly bored the Newburgh delegates, though "Ben" was actually amused. He finally named

Judge Arthur S. Tompkins, of Rockland. Mr. Fullerton seconded the nomination. He declined to take the platform

"ROUGH RIDER" QUAID NOMINATED

Democratic Senatorial Convention Sclected William Quald, of Newburgh, as its Candidate-Such Enthusiasm Areased by the Choice of One of the Morece of Santiage.

The Democratic convention for this Senatorial District, Orange and Rockland counties, met in the Newburgh Court House, Tuesday afternoon, to nominate a candidate for State Senator.

The convention was called to order by E. A. Brown, of this city, Chairman of the Senatorial Committee, who nomimated ex-District Attorney Frank Comesky, of Rockland county, for chairman. Mr. Comesky on taking the chair made a brief yet inspiring speech.

Wm. A. Parshall, of Port Jervis, and W. H. Bannister, of Nyack, were elected

Thos. Fulton, Jr., of Washingtonville, and Augustus Van Cortlandt, Jr., of Tuxedo, were chosen tellers. M. McCabe, of Rockland county, in pre-

senting the name of William Quaid. of Newburgh, said he was a candidate who could win. He spoke of him as honest, intelligent and aggressive,—a young man of blameless life who had shown his loyalty to his country by risking his life for it. His references to Mr. Quaid were received with hearty cheers.

Mr. Kohl, of Newburgh, seconded the nomination of Mr. Quaid, and when he had corcluded, James G. Dunphy moved that the tellers cast one ballot for Mr. Quaid, making the nomination quanimous. This was done and Mr. Quaid was declared the unanimous nominee of the convention.

On motion of Mr. McClung, a committee consisting of Michael McCabe, of Rockland county, and Henry Kohl, of Newburgh, was appointed to escort the candidate before the convention.

As the committee entered the hall with Mr. Quaid, The Rough Rider cheer of "Yi-Hi" was given with a will, and the candidate smiled as he heard it. He was escorted to the platform and there welcomed by the chair, after which he was introduced to the delegates. For a moment he was unable to make himself heard so great was the enthusiasm. Then he thanked the delegates, modest'y and simply for the honor conferred, assured them that he should do all in his power to help the cause along in this district, and at the same time work for the entire ticket. He recognized the fact that a hard fight was before him, but he was prepared to undergo the ordeal,

Charles H. Ryan, of Newburgh, spoke in commendatory terms of the democracy of the entire Quaid family, referred to the patriotic spirit shown by the candidate, the hardships experienced at the front, his brilliant career in Troop K, and prophesied for him a triumphant election in November. Hou. M. N. Kane, of Warwick, also

and spoke briefly, eulogizing the candidate assuring all that earnest work for Democcacy's cause would result in success on election day. The chair appointed the following

Senatorial committee: E. A. Brown, Chas. M. Vail, Benj. McClung and Thos. Fulton, Jr., of Orange, W. H. Bannister and John Connell, of Rockland.

SKETCH OF THE CANDIDATE.

The Newburgh Register says: "Will" Quaid, the next Senator from this district, is a Newburgher by birth, baving seen the light of day in the residence on Liberty street now occupied by William Vanamee. He attended the public schools of the city, and later the Newburgh Free Academy. He was an expert horseman, probably no better in this section of country, and at the outbreak of the war with Spain made application to become a member of Roosevelt's Rough Riders. He was one of the fortunates, and accompanied the command from San Autonio to Tampa, and thence to Cuba, taking part in the battles of San Guasimes, San Juan, Siboney and the campaign before Santiago. When the troopers returned to the north he was with them at Montauk Point, serving from the day of their muster until their discharge from service. Since returning home he has entered the business house of his father, John H. Quaid. and has proceeded with his duties as before. He has had no desire to enter politics, but finally consented to permit the use of his name for the office to which he was nominated Tuesday at theurgent request of party leaders from all sections of the district.

UNCLE SAM'S BIG GUNS.

How the Huge Pergings Are Assembled in the Government Gun Foundry at Washington.

In St. Nicholas there is an illustrated article on "The Gun Foundry at Washington." The author says: The guns are made of what is called forged steel. This steel is made by private firms, principally at the famous Bethlehem works in Pennsylvania, and is sent to the gun foundry in the shape of large tubes, and in other shapes called jackets and hoops. These steel pieces, after being finished, are put together and mad into guns. The jacket of a gun is about half the length of the tube, and itself is really a large tube. The inner tube, when it arrives, is put into a lathe, and has the hole bored out to nearly the size it will be when finished; then it is turned down inside for about half its length from the rear or breech end to its proper size. "Turned down" means that the metal is cut off with a steel cutter. The jacket also is bored out smoothly and the hole carefully measured. The diameter of this hole, or bore, in the jacket is a little smaller (some hundredths of an inch) than the outside of the tube after being turned down.

Overhead in the shop are big cranes, which travel back and forth on tracks, and which can easily lift and carry heavy weights. The largest crane is called the 110-ton crane, but it will lift a weight even greater. Near the center of the gun shop is a large pit in which there are furnaces. After the tube has been bored out and turned down outside, it is carried by a crane and lowered into the pit near the furnaces, so that it stands on its muzzle end, the breech end being up in the air. The jacket is also lifted and lowered into a furnace and heated. This furnace has a top, or cover, which lifts off, and which is put on after the jacket has been lowered into it. Hot air is forced into this furnace, which heats the jacket till it expands so that the size of its bore becomes greater in diameter than the size of the tube it is to inclose. When all is ready, the cover is lifted from the furnace, the crane hooks on to the jacket, lifts it out of the furnace, and swings it over the tube. The jacket is then quickly measured, and carefully lowered over

PUTTING A JACKET ON THE TUBE

the tube, which is standing on its end. A stream of cold water is then admitted into the lower end of the tube. This water rises nearly to the top of the tube, and helps to cool both tube and jacket, frow fitted together. As the jacket cools it shrinks to its proper size, and so squeezes and holds the tube tight within.

When both are cold, the partly made gun is lifted out of the pit, put into another lathe, and turned down outside so as to be ready to have the hoopput on. These hoops, which have been bored out to the proper size, are heated and shrunk on over the gun just as the jacket was shrunk on over the tube. The whole gun is made, or built up. in this manner. After all the hoops are on, the gun is bored out again to final size, put into a rifling machine, and rifled: that is, it has grooves cut inside of the bore throughout its length. These grooves commence at the muzzle, and gradually curve till they reach the end of the bore. They are cut by what is called a rifling bar, which is a long shaft with cutters at one end. The gun remains steady, while the bar enters into the gun at the muzzle, and turns at the same time, thus carring what are called spiral groovethroughout the length of the bare of the gun. This rifling is done so as to give the shot or shell, when the gun ifired, a twirling or rotary motion, which prevents it from tumbling end over end, and causes it to keep pointed in the right direction. The shot or shell (projectile) is long, and has a copper band fitted on its rear end. When the gun is fired, this copper band, being softer than the steel of the gun, enters into the grooves, is turned by them. and gives the projectile a spinning mo-

tion during its flight. tle Got Plenty of Change,

A sporting looking man undertook to have some fun with the train boy. and offered to buy a one-cent newspaper if the boy could change a \$20 bill. The boy was about to reject the offer, when another passenger handed him a large and heavy canvas bag. "Take your change out of that," he whispered. The boy opened the bag and found it full of pennies. He counted out 1.999 coins t∈ the facetious passenger, who was man enough to keep to his bargain. It was afterward learned that the accommodating passenger was connected with a penny-in-theslot company, and had been making a collecting tour.

UNCLE SAM'S BIG GUNS.

How the Huge Forgings Are Assembled in the Government Gun Foundry at Washington.

In St. Nicholas there is an illustrated article on "The Gun Foundry at Washington." The author says: The guns are made of what is called forged steel. This steel is made by private firms, principally at the famous Bethlehem works in Pennsylvania, and is sent to the gun foundry in the shape of large tubes, and in other shapes called jackets and hoops. These steel pieces, after being finished, are put together and mad into guns. The jacket of a gun is about half the length of the tube, and itself is really a large tube. The inner tube, when it arrives, is put into a lathe, and has the hole bored out to nearly the size it will be when finished; then it is turned down inside for

about half its length from the rear or breech end to its proper size. "Turned

down" means that the metal is cut off

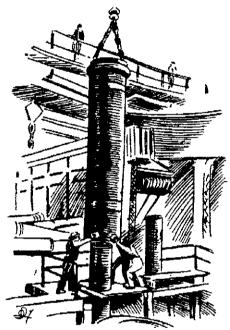

with a steel cutter. The jacket also is bored out smoothly and the hole carefully measured. The diameter of this

hole, or bore, in the jacket is a little smaller (some hundredths of an inch) than the outside of the tube after being turned down. Overhead in the shop are big cranes, which travel back and forth on tracks, and which can easily lift and carry heavy weights. The largest crane is called the 110-ton crane, but it will lift a weight even greater. Near the center of the gun shop is a large pit in which there are furnaces. After the tube has been bored out and turned down outside, it is carried by a crane and lowered into the pit near the furnaces, so that it stands on its muzzle end, the breech end being up in the air. The jacket is also lifted and lowered into a furnace and heated. This furnace has a top, or cover, which lifts off, and which is put on after the jacket has been lowered into it. Hot air is forced into this furnace, which heats the jacket till it expands so that the size of its bore becomes greater in diameter than the size of the tube it is to inclose. When all is ready, the cover is lifted from the furnace, the

crane hooks on to the jacket, lifts it out of the furnace, and swings it over

the tube. The jacket is then quickly

measured, and carefully lowered over

JACKET ON THE TUBE the tube, which is standing on its end A stream of cold water is then admitted into the lower end of the tube. This water rises nearly to the top of the tube, and helps to cool both tube and jacket, frow fitted together. As the jacket cools it shrinks to its proper size, and so squeezes and holds the tube

tight within.

When both are cold, the partly made gun is lifted out of the pit, put into another lathe, and turned down outside so as to be ready to have the hoopput on. These hoops, which have been bored out to the proper size, are heated and shrunk on over the gun just as the jacket was shrunk on over the tube. The whole gun is made, or built up. in this manner. After all the hoops are on, the gun is bored out again to final size, put into a rifling machine, and rifled; that is, it has grooves cut inside of the bore throughout its length. These grooves commence at the muzzle, and gradually curve till they reach the end of the bore. They are cut by what is called a rifling bar, which is a long shaft with cutters at one end. The gun remains steady, while the bar enters into the gun at the muzzle, and turns at the same time, thus curling what are called spiral groovethroughout the length of the bore of the gun. This rifling is done so as to give the shot or shell, when the gun is fired, a twirling or rotary motion. which prevents it from tumbling end over end, and causes it to keep pointed in the right direction. The shot or shell (projectile) is long, and has a copper band fitted on its rear end. When the gun is fired, this copper band, being softer than the steel of the gun, enters into the grooves, is turned by them. and gives the projectile a spinning motion during its flight.

He Got Plenty of Change.

A sporting looking man undertook to have some fun with the train boy. and offered to buy a one-cent newspaper if the boy could change a \$20 bill. The boy was about to reject the offer, when another passenger handed him a large and heavy canvas bag. "Take your change out of that," he whispered. The boy opened the bag and found it full of pennies. He counted out 1,999 coins to the facetious passenger, who was man enough to keep to his bargain. It was afterward learned that the accommodating passenger was connected with a penny-in-theslot company, and had been making a collecting tour.

MRS. CARRIE F. TREMPER, Lake, Ind., whose letter we print, is only one of many that have been cured of ovarian

"DEAR MRS. PINKHAM:-- I WAS suffering from congestion of the ovaries, misplacement of the womb, irregular, scanty, and painful menstruation, also kidney trouble.

I had let it go on until I could not sit up, and could not straighten my left leg. My physician gave me relief, but failed to cure me. Reading the testimonials of different women, telling what Lydia E. Pinkham's Vegetable Compound had done for them, I decided to give it a trial. I had almost given up hopes, as I had suffered

untold agony. The first dose helped me. And now, after using eight bottles of Vegetable Compound, one bottle of Blood Purifier, one box of Liver Pills, I am proud to say I am as well as I ever was. I might have saved a large doctor's bill and much suffering, had I tried your precious medicine in the beginning of my sickness. All in the village know I was not expected to live, when I had the first and second attacks. In fact, I had no hope until I began taking your Vegetable Compound. It has saved my life.

and common carelessness can make a combination strong enough to defy all the healing skill of the physician. Common carelessness lets the cold root and grow. Common carelessness says, between paroxysms of coughing, "It will be all right in a day or two," and the common end is confirmed lung trouble, perhaps consumption. The common-sense treatment of a common cold is a prompt dose of Ayer's Cherry Pectoral. It is the most efficient and reliable cure for colds and coughs, and is constantly prescribed by physicians.

"A STITCH IN TIME."

Why Repairs Should He Made at Ouce to the James Street Pavement.

Property owners on James street are agreed that the city authorities ought to at once relay the pavement on the west side of that street. There are many low places and depressions and a few feet from the railroad track is a hollow into which the wheels of every vehicle that passes drop and which is being worn deeper and deeper with each succeeding day.

If repairs are made to the pavement now a good many more years' wear can be got out of the blocks. If it is left in its present condition the blocks in the hollow above referred to will be worn out by spring and work that will cost but a few dollars now will cost several hundred then. It's a case where "a stitch in time will save nine."

Opening of the Walden Track.

The first trotting meeting of the Walden Driving Park Association will take place on the new track on Saturday, 0:t. 15. A purse of \$200 is offered for the 2:19 class trotting and pacing, and also one of \$150 for the 2:27 class.

An Fleetrie Light Franchise Annulled.

Port Jervis's Board of Trustees, Monday evening, formally revoked and annulled the franchise granted in March last to the Port Jervis Electric Light and Power Company. The company, which was allied to and practically identical with the street railway company, has complied with none of the conditions of the franchise, hence this action by the trustees.
